### CERTIFICATE OF ANALYSIS

**Important Note:** Centrifuge before opening to ensure complete recovery of vial contents.

**Catalog #:** R88025 **Lot #:** n/a

**Description:** West Nile Virus Matrix (Middle)  
West Nile Virus Matrix Protein, Middle Region

Synthetic peptide corresponding to 15 amino acids near the middle of West Nile Virus Matrix protein. Used for blocking the activity of West Nile Virus Matrix Protein antibody (Catalog #B88025R).

**Source:** Synthetic

**Format:** Purified, Liquid

**Concentration:** Lot Specific

**Buffer:** PBS, pH 7.2 containing 0.1% BSA.

**Preservative:** 0.02% Sodium Azide

**Applications:** Suitable for use in ELISA. Antibody activity is usually completely blocked in ELISA assays by incubating the peptide with equal volume of antibody for 30 minutes at 37°C. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded.

**Storage:** Store (up to one year) at -20°C. Avoid multiple freeze/thaw cycles.

**Inactivation:** Not Applicable

**Warnings:** This product contains sodium azide, which has been classified as Xn (Harmful) in European Directive 67/548/EEC in the concentration range of 0.1 – 1.0 %. When disposing of this reagent through lead or copper plumbing, flush with copious volumes of water to prevent azide build-up in drains.
